

STATE/FEDERAL RPS COLLABORATIVE
WEBINAR #3:
"FOSTERING TECHNOLOGY AND RESOURCE DIVERSITY
THROUGH RPS"

July 31, 2008, 1-3 pm EDT

1. Welcome, Webinar Overview, and Introductions

Mark Sinclair, Clean Energy States Alliance

Steven Weisman, Peregrine Energy Group

2. "State RPS Strategies to Promote Resource Diversity"

Ryan Wiser, Lawrence Berkeley National Laboratory

Ryan Wiser has, for many years, been tracking state RPS programs and investigating the effectiveness of these programs from his position with Lawrence Berkeley National Laboratory. Ryan will provide an overview of state RPS initiatives and successes promoting resource diversity, drawing on the findings in the recently published (and co-authored by Galen Barbose) report "Renewable Portfolio Standards in the United States, A Status Report with Data Through 2007."

Download report at <http://eetd.lbl.gov/ea/ems/reports/lbnl-154e-revised.pdf>

3. Presentations on States' Experiences to Date: Solar Shares, Carve Outs, Set Asides, and Multipliers

A panel of state regulators and administrators will offer their perspectives on their states' individual experiences with RPS program provisions that are designed to encourage resource and technology diversity. Focus will be on the rationale, tool used, results achieved to date, and any lessons learned.

- *Roger E. Clark, The Reinvestment Fund and Sustainable Development Fund (PA)*
- *Anne-Marie Cuneo, Nevada Public Utilities Commission*
- *Steven Johnson, Washington UTC*
- *Michael Li, Maryland Energy Administration*
- *Michael Winka, New Jersey Board of Public Utilities*

4. Questions & Discussion: Merits of Resource-Specific RPS Designs

The Webinar materials will be posted at

<http://www.cleanenergystates.org/JointProjects/State-Federal-RPS.htm>

after the webinar session.
