

Clean Technology Implementation Network Organizing Meeting

May 14, 2003

*The Park Hotel
Stadhouderskade 25, 1071 ZD
Amsterdam, the Netherlands*

AGENDA

Wednesday, May 14

9:00 to 19:00

9:00

Introduction and Opening Remarks

(a light breakfast will be provided during this session)

Lew Milford
Clean Energy Group

Peter Mallaburn
The Carbon Trust

Lew Milford and Peter Mallaburn will provide an overview of the meeting objectives, provide background on the Clean Energy Group and the Carbon Trust, and introduce the concept of the Clean Technology Implementation Network.

10:00

Roundtable Introduction of Participants

Participants will include representatives from U.S. state clean energy funds from California, Connecticut, Massachusetts, Minnesota, New Jersey and Pennsylvania, plus clean energy funders and investors from Canada, France, Italy, the Netherlands, the United Kingdom as well as EU policymakers.

Participants are asked to introduce themselves, briefly describe their funding programs and discuss their interest in collaboration.

Participants include:

Ronald Albers, RIVM Institute Public Health Environment and Nature (NL)
A. Brogrop, Project Bureau for Sustainable Energy (NL)
John Butt, Conduit Ventures Limited (UK)
Subhash Chandra, Connecticut Clean Energy Fund (US)
Louise Comeau, Federation of Canadian Municipalities (CAN)
Theo de Lange, ECN Energy Research Center of the Netherlands (NL)

Tineke de Vries, Netherlands Department of Economic Affairs (NL)
Steven Fleming, Massachusetts Renewable Energy Trust (US)
John Geesman, California Energy Commission (US)
Giuseppe Girardi, ENEA (IT)
Steven Glaser, Fuel Cell Europe (UK)
Koert Jansen, Triodos (NL)
Peter Mallaburn, The Carbon Trust (UK)
Bill McCalpin, Rockefeller Brothers Fund (US)
Lew Milford, Clean Energy Group (US)
Michael Northrop, Rockefeller Brothers Fund (US)
Rob Sanders, Sustainable Development Fund-The Reinvestment Fund (US)
Allison Schumacher, Clean Energy Group (US)
Paul van Aalst, consultant to Clean Energy Group (NL)
Among others

12:30

Keynote Luncheon Speaker

John Geesman
*California Energy
Commission*

(a working luncheon will be served during this session and the 1:30 session)

Commissioner John Geesman, who is the presiding member of the Renewables Committee at the California Energy Commission, will give an in-depth perspective on California's clean energy market.

13:30

Luncheon Speakers (continued)

Discussion on Investment Organizational Models

Peter Mallaburn
*Carbon Trust
(moderator)*

Bill McCalpin
*Rockefeller Brothers
Fund*

For this discussion, we have asked representatives from the range of organizational structures that invest in clean technologies to further discuss perspectives on their different approaches to delivery: private not-for-profit company, the agency/financial sector partnership and the role of the private foundation in clean technology investment.

14:30

The Clean Technology Implementation Network

Lew Milford
Clean Energy Group

Allison Schumacher
Clean Energy Group

Peter Mallaburn
The Carbon Trust

Lew Milford, Peter Mallaburn and Allison Schumacher will further explain the concept of an international Clean Technology Implementation Network and lead an open discussion on areas for possible collaboration. This will be followed by a moderated discussion.

The areas to be addressed include, *inter alia*:

- Do we have consensus about future cooperation?
- Can this consensus be advanced through a Clean Technology Information Network?
- How do we avoid duplication with other entities?
- How do we begin to explore organizational issues to start such a Network?
- What is the best near-term portal to share “best practices” and disseminate information?
- Who else should be involved in this discussion?
- If we were to have a six-month plan, what would that look like?

This list is only suggestive. We anticipate more and better ideas to emerge from the group discussion.

16:30

Summary and Next Steps

Lew Milford

17:00 to 19:00

Cocktail Reception

Participants are invited to a cocktail reception in the Park Hotel (room TBA) sponsored by the Netherlands Foreign Trade Agency and the Consulate General of the Netherlands in New York.

The Clean Technology Implementation Network Organizing Meeting has been made possible by the generous support of the Oak Foundation.
